MABEL HOGGARD

Math & Science Magnet School

The Children are the Future

Our COMMUNITY values and promotes character and social skills development through daily modeling of respect, conflict resolution, and personal responsibility.

Our MISSION is to challenge and empower all students by providing an enriched education with an emphasis on science, mathematics, and technology.

We BELIEVE students learn best through inquiry-based, hands-on academic programs that set high expectations, offer a balanced curriculum and a variety of teaching styles.

Parent PARTNERSHIPS are vital to student success. We encourage active participation and support of our educational program. Parents are invited to volunteer in classrooms, on S.O.T., and at our events and activities throughout the year.

and ... the Future is Now!
